Dear Sir/Madam,

I read with great interest your job opportunity. I am applying for the position. I believe this position offers the challenges that my education and experience have prepared me to handle such tasks on professional basis. I finished my master's degree from computer science at southern Illinois University Carbondale (SIUC) at 2014.

Currently I am working American express as a software engineer (contractor) at OSCP application team where I mostly involved for system design and build migration project from IBM to IaaS and ePaaS platform. I join this team August 2014. During my years of experience at the American Express, I have participated several AIU cloud migration projects (IAAS and ePaaS). In addition, I am active member in the oscp application team.

I am a highly motivated person with good analytical and communication skills. Moreover, my strong background in computer science will put me in the right direction to run any program in your team.

Please find my resume attached for your further reference. I look forward to having the opportunity to discuss my application further and am available for an interview any time.

Thank you for your time and consideration of my application.

Kind Regards,
Signature
